Please disable the popup blocker before going to YouScience.

Don't show this message for a month.

Ok

7. First time user: complete information:

Need: Zip code, State, Phone number (can use school), Birth Month and Year, Ethnicity, Gender, and School email address

First Name * Last Name *

Zip Code * State * Outside of USA

Phone Number * Birth Month * Birth Year *

Ethnicity * Gender *

Primary Email * Secondary Email

02a29cac-5ddf-11ec-b846-26c9fa4ea67e@no-reply.com

Email will auto generate this address but students need to erase

8. When everything is completed correct the “Ok, let’s get started” button will turn green and become clickable

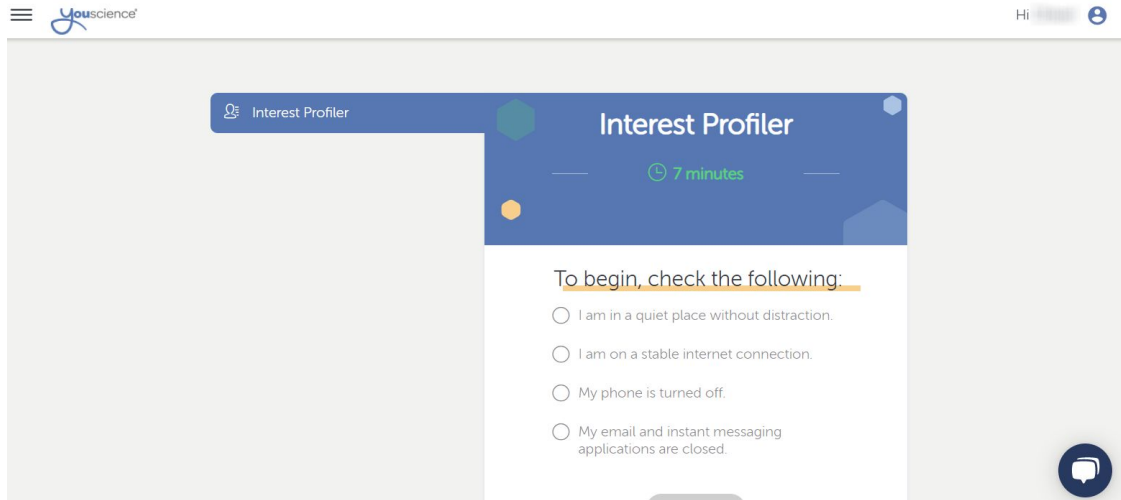

Great! Everything's looking good.

You're about to play some game-like exercises that will unlock helpful insights into who you are and how you work. These exercises are the springboard to discovering careers that fit you.

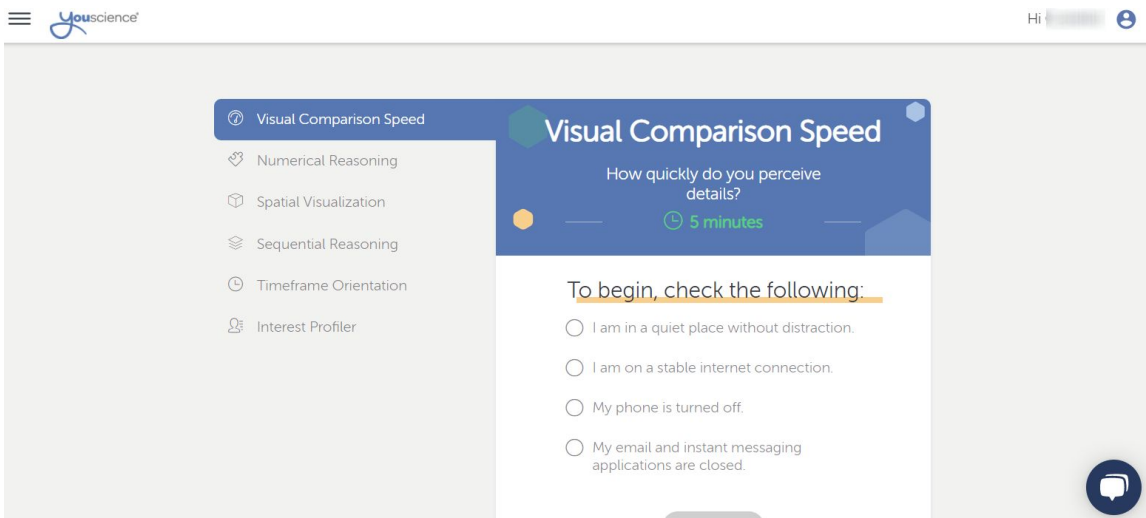

OK, Let's get started

***If it is not green a piece of information is missing**

9. 6th Grade students will start the Interest Profiler

10. 7th and 8th Grade will start the brain games

11. To log out hover over person icon and select log out

The screenshot displays the YouScience application interface. In the top right corner, a user profile icon is circled in red. The main content area features a blue header for the 'Visual Comparison Speed' test, which asks 'How quickly do you perceive details?' and shows a timer for '5 minutes'. Below the header, a section titled 'To begin, check the following:' lists four conditions for starting the test:

- I am in a quiet place without distraction.
- I am on a stable internet connection.
- My phone is turned off.
- My email and instant messaging applications are closed.

A chat bubble icon is visible in the bottom right corner of the interface.
